CHORUS

Love is all around
Love is all around
Love is all around
Love is all around

The Earth is our treasure, how lucky are we
Love is all around
Home to billions of people just like you and me
Love is all around

CHORUS

We're living here together as we spin through space
Love is all around
Sisters and brothers of the human race
Love is all around

CHORUS

When you look up night and see the stars in the sky
Love is all around
Do you wonder who we are, how did we get here and why
Love is all around

CHORUS

May the road we all travel be paved with peace
Love is all around
Step by step, love will grow and hatred will cease
Love is all around

CHORUS

Come on, people, let's build a world that's caring and kind
Love is all around
We need each and every one, yes, now is the time
Love is all around

CHORUS
