Dear Ruth,

On behalf of CARE, I thank you once again for your involvement with the Smoke-Free Celebration Day at Germantown Elementary School on Tuesday, March 30, 2004.

We feel that the Third through Sixth Graders gained much insight on the dangers of cigarette smoking and also an awareness of how to avoid beginning such a habit. By rotating through many different stations, such as examining the ingredients of a cigarette to seeing a demonstration with healthy and diseased pig lungs to learning how much it actually costs to smoke, the students were able to learn first-hand many reasons why it is not in their best interest to smoke cigarettes.

Your work with the Third and Fourth Graders to compose a special song for this event was fantastic! By presenting this song at the Closing Program, you helped to wrap-up the day's activities and send the students home with a catchy reminder of the knowledge they had learned in the various stations.

We appreciate your assistance with our efforts, and we will keep you in mind for future educational programs we may consider for the students of Germantown.

Kindest regards,

Rev. Mark Frickey

Dear Ruth,

I would, once again, like to take the opportunity to tell you how much I, the students and their teachers enjoyed your program. Your music, and style is so upbeat, warm and loving. These are things we try to instill and you supported our school philosophy of nurturing children so nicely with your music.

Your technique of a holistic approach, also ties in very well with our educational philosophy. We are looking forward to having you back at Margaretville in the very near future. Keep up with your songwriting and music making. Have a good and healthy year.

Very truly yours,

Linda J. Caswell
Arts in Ed. Coordinator
